Dear Harold (&):

Well, I have your most welcome reply, so that pkg. I mailed airmail this very a.m. — or send back!

My landlady says she talked to my son over the phone this morning, and ?? so I may have been badly influenced by the fact that my son had slept in a borrowed car in front here the previous night (Fri. night). Even then tho' I was worried because I had heard what sounded like a shot inside a vacuum or closed containment. Because he had tried suicide previously

(over)

a month ago by taking
a bottle of "tranquilizers"
etc — had to have his
stomach pumped at hosp.
But if I find he's OK I
am worried, because to
me, I find someone was
~~in the~~ burst burning in
the auto and also dusted
an empty watch container
on the street. 6 days later —
(this a.m.) Will look for answer,
then. I believe you will
see that the notes I sent
after time of research
contain valid data pertinent
to the JFK case especially.

I am asking of
you to supply me, also,
by return mail the address
of someone (beside Feuterwald

who can't take it on, he says) - that you consider knowledgeable and qualified to analyze and must know what I am referring to in my material!

Right now, I have prep. I do not want to go to waste, you see, so a suggestion from you I will more than appreciate.

Penn Jones is like you (were perhaps) but he too is restricted by age, etc.

Then too, how can anyone tell the "caste" ones facts?

"Shaw and Harris, authors of "Coverup" I don't particularly wish to deal with, as they are close to home and, brother "home" is where the cancer's "at"!

Fort Worth Texas, literally has hundreds of taverns bars, clubs listed in the dirs. There is a labyrinth in which murder is practiced without fear except like the Davis case. Sorry I haven't been able to just continue with Fensterwald after started on the Davis case in particular.

I clumped into on a man, locally, a jack white ad-man who like, ~~Jerry~~ Fensterwald came out in the newspaper with data. (That's something I don't intend to ever do.—)

So, thanks for your reply as is, however.

About your physical troubles, (I don't know your age) — please consider

~~Well~~. Thanks for your consideration, Mr. Weisberg... and again, tell me who it can ~~handle~~, receive news articles, etc, from me - O.K.? I'll look for my son's photo, back then. I'm ~~not~~ still uncertain about this stringent situation, I tell you. I yet feel pitifully inclined to be aware of that it could have been him? If you're not able to check on the wall (analyzing) for me that's that. To me, a human was there. They were still going according to those same old ways, I thought.

Looks like I'm left with myself - May just try to cull out the "data"

some yoga for remedy.
In 1968 I had a serious fall - I busted a Kidney, broke ribs, has suffered lacerated liver. But I had been taking yoga a few years - not the complicated most advanced versions "Rajah" you understand ... but simple - as from a book "Christian yoga" by J. M. DeChanet a former Cath. priest who was an invalid before he took up yoga. He advocated 12 exercises and accentuated the breathing - especially alt. breathing exercises.

I was in the VA Hosp. at Dallas ten days and came on out of the near fatal conditions. (over pls.)

of, to Kirkpatrick etc.

that is most offensive and send some to the for the senate considerations. However, much of what I have come across is immense compliment compiling, pointing to havoc.

For instance: I discovered that the same names are being used showing up in big industry - David, or martin, etc. or Victor, etc. The women: Shirley, or Donna, or Susan, or Margaret, or Ruth, Ruby etc. (for example). But, I have to keep secret. Dapp To me, a Ray is that at the end of WW II, after SS had signed leaflets offering surrender to the Germans, the highly "competent", etc., ones, took over commencing "Das Putsch"!

when Belden came to Washington, via "courtesy" of a top intelligence Gen. there started America's (if there was such after WW I) becoming subject to USSR (Communist) and German-Italo-etc. (fascist) conflicts with citizens, especially as victims, in the midst.

Some of this is so hot, that they who are in the "know" top persons are able to suppress.

Well, I'll look for your reply, then, and I soon will order some books from you as I did from Penn Jones. You and he are both out in the open, in the matter. I have never been, but I urge you or when your health permits—

to check some of the matters (of ID) see what you find.

Right now, I am going to cut out an item or two and enclose, here, like for instance, the photo of the "Cubans", etc. More and more, I had become convinced that the JFK case was of local (personalities) anyway.

So, Be good, then, until I hear from you again.

In a way, I wish British MI6 ~~MI5~~ or someone had all my ideas; however, as was in the news recently, Scotland yard was'nt pimon pure anymore. If ever was?

Send me the name of where I can send some of this data to complement. O.K., Bye then.
